Mackenzie-Childs Palm Beach graciously hosted a lovely pre-event on December 6, 2012 for the American Lung Association's upcoming "Adventures in Wonderland" 11th Annual Breath of Life Luncheon. Mackenzie-Childs proudly supported the American Lung Association, giving 10% of the evening's proceeds to the organization's fundraising efforts. The popular brand's Creative Director, Rebecca Proctor, was on-site to greet fans and sign purchased merchandise. Guests of the invite-only pre-event were immediately consumed with holiday cheer the second they walked through the doors of the impeccably designed Worth Avenue boutique. Loyal customers and supporters of the American Lung Association shopped for everything from holiday ornaments to festive tableware while enjoying an impressive spread of food and wine.

Department of Neurology: Stroke, Parkinson's Disease, Cognitive Disorders

Dr. Carlos Singer  
Parkinson's

Mark & Janet Levy,

Dr. Ralph Sacco  
Stroke

Dr. Clinton Wright  
Alzheimer's

### Dr. Carlos Singer

**Professor of Neurology and Chief of Movement Disorders Division**, talked about advancements in the study and treatment of **Parkinson's disease**. He introduced the audience to UM's Center for Parkinson's **Disease and Movement Disorders**, which has been under his direction since 2002, and offers specialized medical diagnosis and treatment of Parkinson's disease and other movement disorders. He explained that while there is much work to be done to identify the factors that cause **Parkinson's disease**, we have learned how, with medications, to control symptoms. These treatments are effective in halting the progression and moderating the symptoms of the disease, mostly by increasing the levels of dopamine in the brain. For those whose symptoms do not respond to the usual medical treatments, UM also offers state of the art neurosurgical therapies including deep brain stimulation for **Parkinson's disease** and other movement disorders.

### Dr. Ralph Sacco

**Professor and Olemberg Chair of Neurology, Executive Director of the McKnight Brain Institute and Chief of Neurology, Jackson Memorial Hospital**, opened the program with a presentation on **stroke**. He emphasized that although stroke is a major public health issue, few people recognize the warning signs. He explained that an easy way to remember the warning signs is to use the word **FAST**, which stands for **Face**, **Arm**, **Speech** and **Time**. If one side of the **Face** is drooping, one **Arm** is weak and the **Speech** is slurred or strange, act **FAST** and call 911 immediately as **Time** is limited to only 4.5 hours for early treatments. **The University of Miami** has cutting edge research and treatments for acute stroke care and prevention. From using new devices to open up clogged arteries, to research trials using stem cells to enhance recovery, to new studies unraveling the genetic factors that can lead to stroke, the doctors at **UHealth** are some of the nations best in treating and preventing **stroke**.

### Dr. Clinton Wright

**Associate Professor of Neurology and Scientific Director, Evelyn F. McKnight Brain Institute and Chief, Division of Cognitive Disorders**, discussed trends in **Alzheimer Disease** detection and treatment. He pointed out that while there is no effective treatment for **Alzheimer disease**, drug and non-drug treatments may help with both cognitive and behavioral symptoms. Researchers are looking for new strategies to alter the course of the disease and improve the quality of life for people with dementia. A worldwide quest is under way to find new treatments to stop, slow or even prevent **Alzheimer disease**. Because new drugs take years to produce from concept to market—and because drugs that seem promising in early-stage studies may not work as hoped in large-scale trials—it is critical that **Alzheimer disease** and related dementias research continue to accelerate.

More than 100 guests joined hosts **Janet and Mark Levy** at the **"Solving the Neurological Puzzle"** cocktail party at the **Colony Hotel** on Wednesday evening, December 5th. The reception featured presentations by the physicians and scientists leading the **University of Miami Miller School of Medicine's** efforts to establish the finest comprehensive neurology center in South Florida. It also served as a Kick-Off Party for the 2nd Annual **"Solving the Neurological Puzzle"** Gala at the Breakers Hotel on Saturday, **February 2nd**.

*"Our mission is to provide the highest quality care for patients with neurological disorders in Southern Florida,"* said **Dr. Ralph Sacco**, Director of U.M. Neurology Department, Chairman of Neurology, Epidemiology & Human Genetics . *"We provide expertise in the evaluation and treatment of the entire spectrum of neurological diseases including stroke, multiple sclerosis, ALS, Parkinson's, Epilepsy and Alzheimer's diseases,"* **Sacco** said.

After an introduction by **John Sory**, a Palm Beach native and the current Chief Executive of UHealth Regional Alliance, **Dr. Sacco** opened the program with a presentation on **Stroke**. He was followed by **Dr. Carlos Singer**, Professor of Neurology and Chief of Movement Disorders Division, who spoke about advancements in the study and treatment of **Parkinson's Disease**. **Dr. Clinton Wright**, Associate Professor of Neurology and Scientific Director of the Evelyn McKnight Brain Institute, discussed trends in **Alzheimer's disease**, detection and treatment.

"I am so happy that the **University of Miami, Miller School of Medicine** is planning to open up a clinical care facility right here on the island of Palm Beach and I believe that those of us who are able to do so must support this important institution which will be of great benefit to all who live here.," Funds raised at the **February 2nd "Solving the Neurological Puzzle"** Gala, will support valuable research, clinical care and education for neurological diseases. **Janet Levy** and **Cindy Feltenstein** are the Gala chairs . **Hermé deWyman Miro** is the Honorary chairperson and **Lois Pope** is the International chairperson.
