### Creating Life's Legacy and Inspiration for Loved Ones!

That was the motivation behind the creation of **Artistry In Motion Holographics (AIM Holographics)** for Carl Minardo. The love Carl had for his deceased grandfather was lasting, well after he died. This love was so great that he longed to "see" him and for his grandchildren and great grandchildren to be able to "feel" his presence. Because of this, **Carl teamed up with Steve Harless to make that dream a reality.** The pair invested in 3D

technology that they could provide on a commercial platform. As the momentum of AIM continued to grow, **Minardo** realized other great uses of the **3D technology can be utilized by businesses, non-profit organizations, funeral eulogies, and social gatherings, to name a few.** "I take pride in knowing that I am providing a resource that a short time ago was only used in movies or by the rich and famous." AIM also came up with a way to provide various forms of the holographic experience, which was **another accomplishment for Minardo and Harless.**
